

How to obtain a GFSI (Global Food Safety Initiative) Certification

STEP 1	Decide on the food and beverage safety program best suited to your operation.
STEP 2	Get training on the requirements for your program.
STEP 3	Implement the program and document all controls.
STEP 4	Select a Certification Body to conduct the audit at your facility. Submit the written response and obtain certification.
STEP 5	Correct all deficiencies found by the auditor. Obtain certification.
STEP 6	Maintain your HACCP system and maintain licensing with your government agency and schedule annual audits.
